Drink and Eat (All natural)! BLACK SOYBEAN TEA

Black Soybean Tea is ready to drink - just pour in the proper amount of water and wait for a few minutes.

You can also enjoy the beans themselves after drinking.

Black Soybean Tea is an original and unique tea, made from black soybeans roasted in a far infrared-ray roaster. The main ingredients of Black Soybean Tea are grown by contracted farms in the southern region of Hokkaido (Otohe Town). The health benefits of polyphenol and isoflavone found in black soybeans make this product popular with female consumers. This product features the essence of Hokkaido black soybeans.

Enjoy the affluent fragrance and flavor of Hokkaido!
